

To whom it may concern,

My name is Michael Bowman. I have over 30 years of professional software engineering & consulting experience in both public and private sectors; including fortune 500/1000 companies, and startups. I'm an avid scrum practitioner, full stack software architect, engineer and teacher / mentor. See [resume](#) for entire work history.

<b>WHERE</b>	I own & operate a secure, high-tech computer lab in Columbia City Oregon. The lab allows me to provide you and your team with fast, affordable, custom, high-quality software products. There are three live web-cams in the lab, allowing you to view my progress from any laptop, tablet or phone. My integration with teams is seamless on both national and global scales.
<b>WHY</b>	You need fast, affordable, self-managing, problem-solving engineers that get the job done every time; guaranteed. You need people who understand the software development process, how to communicate with people, how to build good relationships, how to work seamlessly in both virtual and onsite environments. You need experts that are self-equipped, pre-configured, and hit the ground running in every sense of the word. You need IP safety.

My resume is available [here](#).

References will be supplied once you decide to move forward. I'm looking forward to working with you and your team.

Thanks for your time,

**Michael Bowman**
